ABDULLAH RADWAN

Software Engineer | Cairo, Egypt

+20 1031143062 | abdullah.radwan.dev@gmail.com | https://www.linkedin.com/in/Abdullah | GitHub | Website

Professional Summary

Software engineer building web applications with React, NestJS and Node.js, including AI/LLM-powered features. Shipped multiple live projects spanning SaaS billing, RBAC and e-commerce. Currently expanding into Odoo ERP customization.

Projects

Docky — AI-Powered Contract Analysis SaaS (Live) (GitHub) *Jul 2026*

- Built an AI-powered document intelligence SaaS for PDF analysis, compliance assessment, subscription billing, usage quotas, and notifications, using React, NestJS, Prisma, and OpenRouter AI.

APEX — Project Management System (Live) (GitHub) *Feb 2026*

- Architected a full-featured project management system using React.js and NestJS, with Drizzle ORM and Neon PostgreSQL, featuring RBAC, invitation, and notification workflows.

Full-Stack Angular-NestJS E-Commerce (Live) (GitHub) *Jan 2026*

- Designed a high-performance Angular and NestJS application with SSR, scoring 100 on Best Practices and 95 on SEO.

Next.js E-Commerce (Live) (GitHub) *Dec 2025*

- Developed a full-stack Next.js e-commerce platform using Prisma and PostgreSQL with Stripe integration, achieving a 98% SEO score and a 95% Performance score in audits.

Professional Training

Odoo ERP Specialist Diploma — in Progress *Oct 2026 – Feb 2027*

- Developing Odoo customization skills using Python, OOP, ORM, XML, PostgreSQL, API integrations, and workflow automation with AI.
- Learning Odoo ERP modules, business workflows, and requirements analysis across Sales, CRM, Purchase, and Accounting.

Full-Stack Web Developer — MEAN Stack Trainee *Mar 2026 – Jun 2026*

National Telecommunication Institute

- Engineered full stack MEAN web applications with responsive Angular UIs and secure Node.js RESTful APIs, implementing JWT authentication and MongoDB schemas.

Software Engineering Development Program *Aug 2026 – Sep 2026*

Next Path

- Covered BRD/PRD fundamentals and Jira delivery planning. Completed an end-to-end technical project, applying software engineering practices from requirements analysis and planning through development and delivery.

Experience

Front-End Developer — Freelance *Oct 2024 – Current*

- Designed e-commerce websites, landing pages, and digital menu pages with modern and mobile-friendly interfaces.

Skills

Front-End: TypeScript, Next.js, Angular, React, TanStack (Query/Router), Redux, Tailwind
Back-End & Databases: Python, Node.js, NestJS, Odoo Framework, GraphQL, PostgreSQL, MongoDB, Prisma, Drizzle
Odoo ERP & Software Engineering: Odoo ERP, CRM, XML, OOP, Business Process Analysis, BRD/PRD, Agile, Jira
DevOps, AI & Automation: Git, Docker, GitHub Actions, CI/CD, AI Integration, AI Agents, n8n, Workflow Automation

Education

Bachelor's degree in Quality Management — Ain Shams University *Oct 2021 – Jun 2025*

Faculty of Agriculture — Graduated with Honors (GPA: B+)
